Power ™

Manufacturing locally means local support when it matters

We engineer and manufacture Battery Energy Storage Systems (BESS), high-quality lithium batteries and energy storage enclosures.

Built in Melbourne, Australia, PowerPlus products are known for their dependability, simplicity, and scalability, being a popular choice for domestic, commercial and other applications.

“It has been a privilege to be part of the journey at PowerPlus Energy as we have expanded our engineering and manufacturing capabilities, building value for our customers. I am excited and looking forward to the new energy storage solutions we will be manufacturing in Australia.”

Bradley Paton, CEO

From a 9m² Kennards storage unit to our new 8000m² ‘giga-facility’, our passionate team is constantly growing, and dedicated to the development of easy and reliable solutions.

Battery Energy Storage Systems (BESS)

This 'all-in-one' option focuses on ease of use, installation and maintenance. These Australian, fully integrated, on and off-grid power systems take modularity to the next level. They're perfect for small, medium and large-scale projects in domestic, commercial, utility and government sectors.

BESS

Escape10 Up to 90kW / 1.44MWh

Escape20 Power 28.8kW – 1.8MW
Energy 64.5kWh – 1.44MWh

Escape30 1MW / 2MWh

FIND THE RIGHT BESS THAT SUITS YOUR ENERGY NEEDS TODAY.

 Three-Tier Remote Monitoring Access

 Low Mean Time to Repair

 Single, Dual and Three Phase Applications

SEAMLESS WITH MANY APPLICATIONS

Suitable for on and off-grid applications including peak demand, arbitrage, diesel offset and micro-grids.

CABINETS FOR ALL KINDS OF WEATHER

A range of enclosures and cabinets to suit the application and location, including indoor, indoor IP-rated, outdoor with external sun shields and air-conditioned. There is a solution for almost any environment.

ESCAPE10

AusNet, Australian Energy provider has installed a number of Escape10 BESS cabinets across Victoria in an effort to replace outdated SWER lines and restore power reliability to remote areas.

Batteries

Our Australian batteries are constructed with quality (cobalt-free) lithium ferro-phosphate cylindrical cells, and equipped with an in-built BMS. They seamlessly integrate universally to provide reliable, long-term outcomes, also scaling easily to suit your changing needs.

QUALITY CONTROLLED ENVIRONMENT

We quality control at every step and comprehensively field test to ensure our batteries meet relevant industry standards, making them a quality energy storage choice.

NO MATTER THE JOB, WE HAVE YOU COVERED

As self managed batteries, they can easily be integrated into most applications.

48V BATTERIES

LiFe4822P 2.2kWh

LiFe4833P 3.3kWh

LiFe4838P 3.8kWh

Eco4840P 4.0kWh

24V BATTERIES

LiFe2433P 3.3kWh

Cabinets

Prefer to design and build your systems? Our pre-wired cabinets minimise the time required to install batteries and inverter equipment on-site. Ranging from small battery enclosures to cabinets, including gear trays that you can prebuild and test in the workshop to simplify your on-site installation.

+  Future Proof Friendly

 Flexibility with PCE Housing
