Power ™

# Manufacturing locally means local support when it matters

PowerPlus engineer and manufacture Battery Energy Storage Systems (BESS), high-quality lithium batteries and energy storage enclosures.

Built in Melbourne, Australia, our products are known for their dependability, simplicity, and scalability, being a popular choice for domestic, commercial and other applications.

**NEW!**

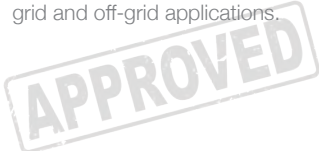

# Experience LiFe. LiFe4838P.

Uniquely user-friendly and adaptable, the LiFe4838P is our new energy storage solution. Whether on or off-grid, they can be integrated into your 'build your own' BESS and are a part of our pre-made BESS'.

What's more, LiFe4838P is Australian-made and has the CEC approval. So you're guaranteed industry excellence and reliability.

CEC approved means greater integration options for both on-grid and off-grid applications.

Off-Grid On-Grid  
Day Night

15% INCREASED CAPACITY

**GENERATION II BMS** **NEW FEATURE!**

Our Generation II BMS and new cell pack construction reduces the need for user intervention and improves battery performance.

**ADVANCED STATUS LED** **NEW FEATURE!**

Identify and resolve faults with alarm status reporting the condition of the internal BMS.

**AC AND DC COUPLING** **NEW FEATURE!**

Enjoy the flexibility of AC and DC coupling without CAN bus cables, allowing seamless system adaptation and customisation.

**15% GREATER CAPACITY** **NEW FEATURE!**

The considered design of LiFe4838P using cylindrical lithium cells means you enjoy a 15% capacity boost.

# How to integrate LiFe4838P

## 1. Create your own BESS

### POWERPLUS CABINETS

16kWh – 48kWh options  
Battery cabling pre-wired with mains circuit breaker. Internal mounting pan for your PCE.

+

### YOUR FAVOURITE INVERTER

Tested with Selectronic, Victron, SMA, Deye, Solis and Noark inverters. Compatible with inverters with voltage and current control settings.

+

### LIFE4838P BATTERIES

3.8kWh per battery.  
The internal BMS manages the safe, reliable operation of the battery. Simply Plug and Play.

=

### YOUR APPLICATION

Power on-grid or off-grid applications from small to large scale applications.

## 2. Use PowerPlus preassembled BESS solutions

### ESCAPE 10

7.5kW  
Backup and true off-grid functionality  
Perfect for those wanting Australian-made BESS', including Selectronic inverters.

### ESCAPE 20

28.8kW – 115kW (Options from 10kW – 1.8MW)  
UPS and true off-grid functionality  
Designed for large domestic, commercial, industrial, and utility scale projects.

### ESCAPE 30

29.7kW – 118kW (Options up to 1MW)  
EPS Capable  
A cluster that promotes flexible and scalable grid-connected designs.

LATEST!

## New Power Cabinet.

Introducing our new PEF4 cabinet designed for domestic applications. Each cabinet houses up to 15kWh. Paralleling capabilities provides greater on and off-grid flexibility with the Australian-made quality assurance.

Tested with Selectronic, Victron, SMA, Solis, Noark and Deye inverters. Suitable for inverters with adjustable voltage and current settings.

NEW!

With the introduction of the new Slimline cabinet there is a cabinet option for all your varying power projects.
