## **Deputy Prime Minister and MP for Aston Visit PowerPlus Energy**

---

PowerPlus Energy was honoured to host Deputy Prime Minister and Minister for Defence, the Hon. Richard Marles, alongside Mary Doyle MP for Aston, at our facility.

Their visit provided a valuable opportunity to discuss key topics around Australian manufacturing, renewable energy, and the future of local industry. The conversation reflected a shared commitment to strengthening Australia's energy resilience and supporting innovation in clean technology.

“We’re proud to showcase the work being done here at PowerPlus Energy,” said Shane Pollard, Executive General Manager. “Visits like these highlight the importance of investing in Australian solutions that create local jobs, support community goals and contribute to Australia's energy transition.”

The delegation showed particular interest in PowerPlus Energy's latest residential offering, Whispr-7—now front and centre in the company's showroom. With potential rebates on the horizon, Mary Doyle noted the company's expansion into the residential market, recalling her last visit on 14th March 2023, when such options weren't available. It was a positive and forward-looking visit, with both guests leaving with a smile and genuine enthusiasm for the progress taking place in their local community.
